Subject: RE: TRW Microwave Site, 825 Stewart Dr: Follow-up on the Aug 19 2021 Site Visit

Good Morning Michael,

AECOM conducted the rooftop SSD and HVAC inspections needed to complete the SSD assessment on March 17th, as Apple was not able to provide as-built drawings. Northrop Grumman and AECOM are working towards providing EPA with the SSD assessment by April 15th. Please feel free to call or email at any time if you have additional questions.

Thanks,

Josh
